SUSTAINABILITY REPORT

Support family small business

OUR COMPANY

We believe quality and sustainability go hand in hand

When you purchase from Pallet Recyclers Pty Ltd you know you have a quality durable pallet that sets its own standards due to the materials we source. We aim to deliver excellent service and always looking out to be kind to the environment.

As we implement our company plan, we recognise that the business case for embedding sustainability into our product is vital. An increasing number of partners we interact with seek assurances that the products they buy are ethically sourced and responsibly made, making our brand highly desirable.

Suppliers have sustainability goals of their own and require our support to implement them. This strong collaboration deepens the relationships we have with our clients. It motivates us to be more innovative, allowing us to deliver new techniques that produce products with greater benefits for the consumer.

Pallet recyclers Pty Ltd partners with companies with sustainability as a priority, purchasing products assist people adapt to the changing world we live in. Managing our operations sustainably reduces energy, minimises waste to landfill, whilst generating ongoing cost savings for the consumer.

SPECIALISED INFRASTRUCTURE

The equipment used in the deconstruction of pallets into the individual constituents (parts) allow for sustainable recycling processed and efficient upcycling into new products.

This is the corner stone of **Pallet Recyclers Pty Ltd** and what sets us apart from our competitors in value and quality.

		Domestic Material Breakdown (%)	Recycled Material Recreation of new pallets (%)	Upscaling Material Animal Bedding (%)	Recycled Scrap Metals (%)
Metal	Timber	99	495	495	0
		1	0	0	1

We have a commitment to deforestation by only purchasing from independent certified sources.

Using **50% of new timber** to create our pallets combined with **50% post-consumer recycled timber**.

Animal welfare is of fundamental concern to us, and to many of our partners and customers.

We continue to work with our partners to promote good animal welfare management in our supply chain.

The **woodchip** that is created through the process provides valuable sustainable bedding for livestock and animal habitats

OUR BUSINESS PROGRESS

As a business we cannot choose between growth and sustainability. We need to grow if we are to have the resources to invest in machinery that will assist us to lower emissions and to create sustainable product innovation.

Pallet Recyclers Pty Ltd Living Plan is helping drive both 'sustainability growth' and 'profitability'.

- *Our efforts to reduce the amount of landfill have also cut costs for the business and has somewhat created profit from what was once waste.*
- *The custom-made machinery in our factories have continued to deliver good levels of savings and innovation to reduce waste.*

*We have increased our sustainable focus between **2017 and 2020** by supplementing our infrastructure with techniques that allowed us to recycle timber into agricultural bedding that would normally have ended in landfills.*
